

# Center for Pediatric Wellness, P.C.

is excited to welcome

## Telemedicine Virtual Visits!

We've got great news! Our practice is now offering **online virtual visits**. These are online visits done with you and your child at home!

### How it works

You can use your smartphone, tablet, or computer to communicate via two-way video with your doctor- just make sure that whatever device you choose has a **camera and microphone** enabled, and that either **Firefox or Chrome** is downloaded on your device.

Watch this short video to learn more!

<https://youtu.be/1YaHG4v2jO8>

Upon making your appointment, you will be sent a link ( <https://doxy.me/cpw> ) where you can **enter our virtual waiting room** at your scheduled appointment time.

### Who Qualifies

In order to qualify for a virtual visit, the patient must have been **seen in the office for a well-child checkup in the previous 12 months**. All new patients and all well-child visits will need to be seen in the office.

We are happy to file insurance claims for you, provided we are a participating provider in your plan. Insurance coverage and knowledge of plan benefits are the responsibility of the child's guardians.

### Types of Visits

Currently, we are offering virtual visits for **simple illnesses** such as upper respiratory infections, allergies, poison ivy, pink eye, sinus infections, rashes, acne, ringworm, etc.

### Setting up a Virtual Visit Appointment

- Call the office at (404) 389-1600 to request a virtual visit appointment,
- At your scheduled appointment time, go to <https://doxy.me/cpw> on your Firefox or Chrome browser and enter your child's name.
- Be sure to enable your camera & microphone.
- As soon as Dr. LeDuc is available, she will join you on the call. Please be patient, as physician schedules are unpredictable.
- If needed, your doctor will send you your prescription directly to your pharmacy.
